

AllerGen's Mission, Vision, Goals and Values 2012-2019

Mission

To catalyze and support discovery, development, networking, capacity building, commercialization and knowledge translation/mobilization that contribute to reducing the morbidity, mortality and socio-economic burden of allergy, asthma and anaphylaxis for the benefit of Canadians and the global community.

Vision

To catalyze an enduring network of researchers and trainees, industry partners, healthcare providers, patient advocates and policy makers whose combined efforts improve the quality of life of those impacted by allergic disease, asthma and anaphylaxis, nationally and globally.

Goals

1. Catalyze and support innovative research to discover causes, prevention and treatments for allergic and related immune diseases
2. Contribute to development, translation, mobilization, commercialization and policy use of research that accelerates Canadian innovation, productivity and economic competitiveness
3. Develop and maintain networking and partnerships rooted in strong, mutually beneficial relationships with relevant communities and organizations
4. Create "value-added" opportunities for the training, education and professional development of highly qualified personnel (HQP), students and new professionals and the public that strengthen Canada's knowledge base, innovative capacity and work-force productivity
5. Leave an enduring network of relationships and capacity that sustains AllerGen-fostered research partnerships, commercialization and knowledge mobilization into the future, as a legacy benefiting Canadians nationally and globally.

Values

Excellence:	Model excellence in all we do
Relevance:	Focus on activities aligned with outcomes related to our mandate, mission and the priorities of Canadians
Service:	Undertake Network programs and activities in the context of service to our partners, stakeholders and allergic disease sufferers in Canada and globally
Relationships:	Partner and collaborate to maximize our impact and reach
Empowerment:	Empower researchers, trainees, collaborators, partners and stakeholders by facilitating action and impacts through networking, communication and knowledge exchange
Enablement:	Catalyze and support new opportunities that would not be readily supported in a timely manner from other sources.
