**To facilitate acknowledgment of AllerGen support, a selection of recommended citations is provided:**

<b>Short version</b>	This work was supported by AllerGen NCE Inc. (the Allergy, Genes and Environment Network), a member of the Networks of Centres of Excellence Canada program.
<b>Long version</b>	This work was supported by AllerGen NCE Inc. (the Allergy, Genes and Environment Network), a national multidisciplinary research network supporting research, networking, commercialization, knowledge mobilization and capacity building activities that contribute to reducing the morbidity, mortality and socio-economic impact of allergic disease. AllerGen is a member of the Networks of Centres of Excellence (NCE), a Government of Canada program that funds partnerships between universities, industry, government and not-for-profit organizations to connect leading-edge research with industrial know-how and strategic investment.
<b>Acknowledging AllerGen support when making presentations</b>	AllerGen PowerPoint templates and slides providing an overview of the Network and AllerGen's corporate logo are available electronically to be embedded into electronic or print presentations upon request.
